□ DESCRIPTION OF RESIDENCY PROGRAM

GALERIE ANGERMEIER offers for the 3rd time an Artist-in-Residence International Program. Our goal is to create a dynamic process and cross-cultural exchange among two emerging artists, one from abroad (South America, Africa and Southern Europe) and one with Bavarian roots. They are characterized by a unique distinguished artistic signature or a body of work of their own which impacts the cultural landscape at large.

Thereby, we would like to support all kind of contemporary visual art (painting, photography, sculpture, installation, architecture) and artistic film-making. It shall encourage artists to explore their ideas and work within the context of the rich Bavarian cultural environment and its dichotomy between traditional customs in the countryside and vibrant lifestyles in the city including the view from outside.

□ PRODUCTION RESIDENCIES

The intention is to produce new work, a project or a site-specific installation with the possibility to show the completed work at the end of the stay. We welcome all kind of projects and encourage submitting those that are blurring their boundaries. The work progress will be accessible to the interested public and sponsors once a month (Open House).

□ DURATION OF RESIDENCY

The program encompasses a period of 2-3 months (between May and October 2024) and ends with a final show of the new work produced individually or together. Both artists are supposed to stay a minimum of 6 weeks up to 3 months and at the same time.

□ CANDIDATES FOR THE PRODUCTION RESIDENCY

Established as well as emerging artists who want to produce a body of work which will conclude in an exhibition.

We only accept artists from South America, Africa and Southern Europe for this time. Artists can also apply as a duo.
